

WEDGE DATA LOSS PREVENTION NETWORK APP

Detect and Prevent Leakage of Structured and Unstructured Data

With motivated, malicious agents rewarded handsomely for exfiltration of your intellectual property - the threat is real. It's important to protect data and IP as the cost to remediate these breaches is high and there could be liability for non-compliance. In addition, the damage to your organization's reputation is often permanent.

Wedge Networks'™ Data Leakage Prevention Network App detects and prevents the leakage of structured and unstructured data, effectively stopping confidential data escaping via web and email.

The Difference

Wedge brings together powerful Deep Content Data Loss Prevention with the high performance of the WedgeOS™ platform, providing unmatched accuracy and throughput, featuring:

- **The largest coverage of file formats and protocols for inspection** - with coverage of over 400+ file types and multiple protocols, Wedge DLP can see and understand more than any other solution on the market.
- **Highest accuracy with two staged scan** - ability to rapidly scan streams and extract suspicious content for more comprehensive evaluation logic, all in real time.
- **Lowest TCO for protecting unstructured data (e.g. corporate IP)** - lower the cost of implementing your DLP solution as Wedge DLP does not rely on high cost reclassification of your data.
- **Built-in compliance support** - easily monitor and enforce compliance based on pre-loaded policies and reports.

"Security professionals must start to put a greater emphasis on protecting IP."

- Forrester, 2012

SECURES DATA IN ALL APPLICATIONS

- Web
- Games
- Mobile Apps
- SMS / MMS
- App Stores
- HTML5
- Email
- Social Networking
- Mobile Payments
- Content on Demand

SOLUTIONS

Network Visibility

- Deep Content Inspection of traffic for full access to all data
- Largest coverage of file formats and protocols with 400+ file types, multiple protocols

Compliance

- Enforce industry regulations
- Identify risky business process
- Improve corporate data usage

Intellectual Property

- Protect what is important to your organization
- Secure unstructured data

Management & Reporting

- Pre-loaded with compliance reports
- Granular policies by users and groups
- Centralized management and reporting

All Your Network Security Apps - One OS

WedgeOS™ platform provides the next generation security infrastructure to detect, protect against, and control threats, information leaks, and allows future security functions to run on the network.

Accuracy

- Deep Content Inspection
- Best of Breed Services

Performance

- Patented Performance
- Unlimited Scalability
- Massive Threading Architecture
- Low Latency

Network Apps

- Universal Platform for Network Apps
- Anti-Malware, Anti-Spam, DLP, Mobile Security, Web Filter, Web Application Control.

Integration

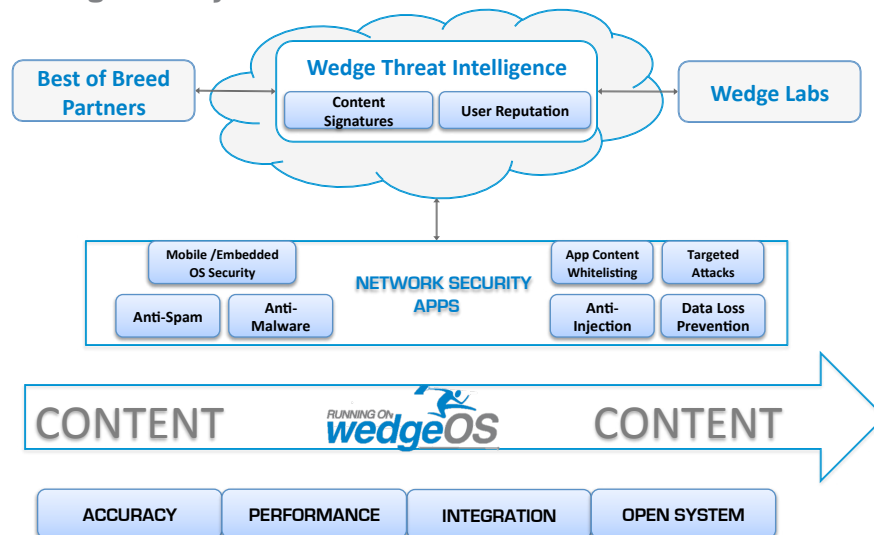

- L2 Transparency with Stealth Routing
- Identity-Aware Policies and Analytics
- ICAP, WCCP, Explicit Proxy,
- Web Console, RESTful API, SNMP, CLI
- Load Balancing / High Availability

WedgeOS™ Form Factors

- Wedge Hardware Appliance
- Wedge Virtual Machine
- Wedge Cloud / SaaS
- Wedge Cloud Network Defense™ (as an NFV-S instance)

Wedge Ecosystem

Wedge Networks™, Inc.

is transforming how network security is delivered. Its innovative Cloud Network Defense™ is a true cloud network security platform designed to deliver the elastic, embedded and comprehensive security that is required to combat the shifting threat landscape associated with today's cloud connected world. Unlike first generation security products, cloud-assisted appliances or even dedicated security clouds, Cloud Network Defense™ enables inline inspection of both inbound and outbound traffic embedded within the cloud layer across all platforms and device types without latency. Wedge's products are deployed globally, delivering security protection for tens of millions of users in Fortune 500 companies, government agencies, Internet service providers, and across all industry verticals. Wedge Networks is headquartered in Calgary, Canada, and has international offices in Dallas, USA, Beijing, China, and Manama, Bahrain.

Awards

Wedge Instant-On Program

The Wedge VM™ is available for free trial through the Wedge Instant-On program. The free evaluation comes with 45-day trial license for all services.

Our extensive Product Evaluation Program allows you to experience the Wedge Content Security platform as part of your decision process.
